The reports from Washington seem to indicate that Guitau will have to hang.

The appropriation bills now before the House of Representatives look to the expenditure of \$800,000,000.

The irresponsibility and insanity of Joseph K. Emmett, the actor are fully proven. He paid \$2,500 the other day for a fancy dog.

Woonsocket, Rhode Island, has a girl who had so much self-sacrifice as to sell her luxuriant brown hair to a lady in Providence for \$200, that she might be enabled to procure comforts for her sick mother.

The late Charles Darwin was very fond of music and paid considerable attention to its study. When he wanted relaxation he resorted to novel reading, and he didn't care whether there was any merit in the book or not, so long as was interesting.

It is announced that Mrs. Sarah Randall, mother of the late Alexander W. Randall, once Governor of Wisconsin and Postmaster General, and of Edwin M. Randall, Chief Justice of Florida, died May 4, at the ripe age of 82. Mrs. Randall was widely known in Washington and elsewhere, and her death will be regretted by all who knew her.

The son of Mr. English, the late Democratic candidate for Vice President, has been nominated for Congress by the Democrats in the Indianapolis district. He has many of the traits of his father, and therefore will not be popular, and can hardly hope to win an election. He is running on a platform which stoutly denounces prohibition and the protection of American industries.

The appointment of George Otto Trevelyan, for Chief Secretary for Ireland, is a change in the policy toward Ireland which will be gladly welcomed by all liberal-minded men. It is a better appointment than was that of Lord Cavenish, because Trevelyan is an able, conscientious, liberal leader, and we judge is in sympathy with the oppressed classes in Ireland.

It is said that Mr. Ephraim Sherman Durfee, who died at Oshkosh last week, conferred the Masonic degrees on Morgan who mysteriously disappeared in 1826. Durfee was 97 years old. He was a soldier in the war of 1812; and in consequence of the intense excitement against Masons after the disappearance of Morgan, he was compelled to leave the country.

One small Democratic leader in Congress with two points of hard backbone would give the party a boom for 1884. A genuine boom is generally of home manufacture, like everything else that is genuine.—*Atlanta Constitution.*

But there's the rub. The Democrats haven't got even a small leader, and as to having backbone, they were never known to have as much as two pints. Moral courage is something the Democrats have never possessed in any noticeable degree.

The hottest campaign which has been seen in Iowa for a long time is the one now going on for the adoption of the prohibitory amendment to the constitution. Many Democrats will vote for it and some Republicans will vote against it. The Germans are divided on the subject. The German Evangelical Association having adopted strong resolutions in favor of the amendment. The result, it is conceded, will depend largely on the fullness of the vote.

The valuable law library of the late Senator Carpenter will be offered for sale to-day and to-morrow at public auction at Astor Place, New York. It is said that there will be no reserve made except that five hundred volumes of selected works will be taken therefrom, by Judge Jere S. Black, which will be given to Paul Carpenter for his own use. If the library fetches what it is worth, some \$25,000 will be realized from the sale.

The Blue and the Gray will be seen in some of the soldiers' reunions hereafter. The committee of ex-Union and ex-Confederate officers appointed to arrange a series of joint reunions of veterans of the army of North Virginia to fix historic points for a government history of the battle of Gettysburg, met in Boston on Tuesday, and have decided on June for those engaged at or near "Peach Orchard," "Wheat Field," "Devil's Den" and "Round Top." June 14th for those engaged in the first day's battle, and Oct 18th for those engaged at or near Culp's Hill or Fast Camden Hill.

Texas is full of independent candidates for Governor. The crop is surprisingly large and will make the contest in that State of unusual interest. Among the prominent ones "Congressman Geo. W. Jones of the 11th District has written a letter placing himself in the field for the nomination. He is the only anti-Bourbon Representative now in Congress from the State. General J. B. Robertson of Waco, is also out with an announcement of his candidacy for Governor on the Independent ticket. He places himself on a platform opposed to the policy of the Democratic party. The prospects of the Independents must be flattering to induce so many men to seek the nomination."

The Democrats in Ohio are in an unpleasant dilemma. They have been disappointed that the liquor interest would be of some advantage to them, but they are quite embarrassed over the fact that if they come out squarely in favor of free whisky and plenty of it, and against closing the saloons on Sunday, they will lose a large number of votes among a very respectable class of Democrats. If they do not hold this position they will lose much of the saloon influence. The liquor men are not disposed to be satisfied with glittering generalities in the platform, doubting whether the Democrats, when once in power will dare to repeal the Pond and Smith laws, and they will demand that the party take a definite position upon the question. To take a definite position is like leaping in the dark.

AWFUL DESTRUCTION.

Terrible Work Performed by a Fierce Cyclone in the Indian Territory and Other Places.

PATSONS, Kan., May 9.—A special to the Sun gives particulars of a terrible cyclone which passed over McAllister, a mining settlement in the Indian Territory, last night.

The destruction of life and property was simply terrible.

Seven people were killed outright, four fatally injured, eleven dangerously, and thirty-nine more or less hurt.

Fifty-nine houses were totally demolished and thirty more very badly wrecked.

The cyclone cut a path through the timber just as you would take a scythe and mow through grass.

The damage to the Osage Coal and Mining company is very large.

The population of the settlement is but 800 and the suffering is very great.

St. JOSEPH, Mo., May 9.—A special to the Gazette says: "About 5 o'clock last evening a cyclone struck Mound City, Mo., and tore things all to pieces. It was the worst storm that ever visited this section of the country. Trees were uprooted, fences blown down, and great damage done. The steeple of the Christian church was blown down. Jacob McCann's house was blown about fifteen feet off its foundation, and fearfully wrecked. The carpenter shop of Pierce was lifted off its foundations. A small house belonging to Geo. Trook was unroofed and blown over. Windows and everything else were blown in."

MINNEAPOLIS, Minn., May 9.—A Tribune Jackson (Minn.) special says that a cyclone struck a school-house five miles southwest of Lakefield, this county, yesterday. The building was lifted up and scattered over the prairie. It was occupied by the teacher and eleven pupils, who were all more or less bruised, three pupils sustaining terrible injuries. The storm came in the form of a funnel-shaped cloud, which bounded along the prairie and passed into Honon Lake, sucking up the water to the height of 100 feet.

St. PAUL, Minn., May 9.—A special says yesterday a tornado passed over the town of Lakefield, on the west end of the Southern Minnesota division of the Chicago, Minneapolis and St. Paul railroad, blowing down several buildings, including a school house occupied by sixteen children and the teacher. Some reports state that four children were killed, but we hear from reliable sources that they were only prostrated and no injuries sustained.

A BOSTON HORROR.

Boston, May 9.—Mary Koenig, a German, and spoken of as an industrious and frugal wife, has recently been deserted by her husband. Her troubles worked upon her mind to such an extent that her reason finally gave way, and but one thought seemed to control her, that by killing her children and herself all her troubles would be ended. The children consisted of Emil, 17 years old; Mary, 13; Alfred, 10, and August, 5. Mrs. Koenig, who is 46 years old, occupied rooms on the third floor of the Warren block. She armed herself with a table-knife and pocket-knife and entered the room where the children were sleeping this morning. She first attacked August, whose throat she cut from ear to ear. It is not supposed that he made any sound, else the other children would have been awakened. The woman next assaulted Mary, whose throat she cut in three places, but probably not fatally. The girl ran screaming out of the apartments into the rooms opposite, occupied by other persons. The screams of the girl were supplemented by the shrieks of Mrs. Koenig, and the wildest excitement prevailed, though none of the neighbors dared enter the rooms. Meantime Mrs. Koenig stabbed Alfred in a dozen different places in the left arm and then assaulted Emil, who resisted quite successfully, although he received a wound on his left arm at the elbow. The children had run from the room for help, and Mrs. Koenig was alone until the arrival of the officers, who found her sitting on the floor in a pool of blood, having cut a severe gash in the left leg and made attempts to open the arteries in both wrists. She appeared very composed and expressed herself quite satisfied with the slaughter she thought she had completed. The officers took her to the station, where her wounds were dressed, and she was afterward placed in a padded cell.

GLYNN'S TRIAL.

ROCKFORD, Ill., May 9.—The second trial of Assistant Marshal George W. Glynn for manslaughter was carried up to the Circuit Court yesterday before Judge Eastace. Over a day has been consumed in challenging jurors, and up to the present time not a single juror has been selected. Venues have been issued for nearly 200 citizens.

MADISON, Wis., May 9.—C. E. Ball, of Ball brothers, foundrymen, a prosperous business man, died to-day aged 32. His remains will be taken to Barnesville, Ohio.

"How do you manage," said a lady to her friend, "to appear so happy all this time?" "I always have Parker's Ginger Tonic brandy," was the reply, "and keep myself and family in good health. When I am well I always feel good natured." See other column.

ALEX. H. STEPHENS.

WASHINGTON, May 9.—Representative Alexander H. Stephens, of Georgia, met with a painful but not serious accident to-day, while ascending the east front steps of the Capitol. His crutches slipped in a pool of water, and the Nestor of the Southern Confederacy fell forward and twisted his ankle. His colored attendant caught him in time to prevent more serious consequences, and, calling a carriage, had Mr. Stephens conveyed to his apartments. Dr. Walsh, who is Mr. Stephens' physician, made him comfortable by administering a hypodermic injection of morphia, and stated that the accident would probably result in his being confined to his room for a week at least. Considerable anxiety was manifested to learn the condition of the distinguished Georgian, and upward of 2,000 persons called at his hotel to-day to express their regret for the occurrence.

REED'S ARGUMENT.

WASHINGTON, D. C., May 9.—The argument on the bill of exceptions in the Guitau case was begun this morning before the Judges of the Supreme Court of the District, sitting in banc, Chief Justice Carter presiding and Justices MacArthur, Hagner and James. Colonel Corkhill and Mr. Davidge appeared for the government and Charles H. Reed for Guitau.

Mr. Reed, after a brief opening, passed to the discussion of the question of jurisdiction of the court below, arguing that the crime was not indictable in this District, because the offense was not completed here—the mortal stroke having been given here, while death occurred in New Jersey. Chief Justice Carter interrupted at

one point to suggest that while murder was the killing of a person, and the crime could not be defined as murder until death occurred, yet the act of felony was completed when the murdered had finished with his victim.

Counsel proceeded to discuss various authorities upon the subject of jurisdiction in brief Counsel admitted that Guitau might be indicted, and (if found to be sane) convicted in this District of assault with intent to kill, but held that he could not be tried for murder.

Mr. Reed argued that the sentence of death is void, because the day fixed for the execution of the sentence is not authorized by law, claiming that, under a proper construction of the statute of the District, the date of the execution should have been fixed some day within thirty days after the fourth Monday of October, 1882.

At 1:30 the court took a recess until tomorrow, when Mr. Reed will conclude his argument.

A Losing Joke.

A prominent physician of Pittsburgh said jokingly to a lady patient who was complaining of her continued ill health and of his inability to cure her, "try Hop Bitters!" The lady took it in earnest and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as it cost him a good patient.

Augusta Luck.
The body of little Augusta Luck was brought to the home of her parents in Monterey, late last evening, where an inquest was held by M. S. Prichard, Esq., justice of the peace, Messrs. T. T. Croft, Ed. Murdoch, James Church, Dr. D. Robinson, John Bauman and Dr. O. P. Robinson being the coroner's jury, who, after hearing the evidence of several witnesses, returned a verdict of accidental drowning. The funeral of the unfortunate little girl was held this afternoon, at 2 o'clock, from her late home, Rev. Mr. Schler, the German minister, officiating, after which the remains were taken to Oak Hill cemetery for burial.

Dr. Pierce's "Favorite Prescription" perfectly and permanently cures those diseases peculiar to females. It is tonic and nerve, effectually allaying and curing those annoying sensations that affect the stomach and heart through reflex action. The back-ache and the "dragging-down" sensations all disappear under the strengthening effects of this great restorative. By druggists.

The Cost of Gas Light.
The city gas bill for the months of January, February, and March last, amounted to the sum of \$646.26; this was for the gas consumed in the street lamps, and expense of lighting same. There are in the city one hundred and twenty-nine gas lamps, and during the above time, the lamps were used fifty-three nights, making a cost of five dollars per post, or a small fraction less than nine and a half cents per night per light. This, certainly, is very reasonable. The increase in the sum total of the gas consumed is owing to the constantly increasing number of lamps. Each year, as the mains are extended, additional lamps are ordered, necessarily adding to the expense of maintaining the same. Truly, the tax-payers of Janesville ought not to complain of any extravagance in lighting the streets, with these figures before them.

For weak lungs, spitting of blood, weak stomach, night sweats, and the early stages of Consumption, "Golden Medical Discovery" is specific. By druggists.

A Sudden Death.
Nelson Finch, a veterinary surgeon of some repute in this county, died very suddenly at the Spence house, in this city, about one o'clock this afternoon. For some time he had not been able to attend strictly to business, and of late was wholly unable to practice his profession. This afternoon between twelve and one o'clock he walked from the barn to the house, went to his room, and in the course of an hour, was dead. His death was unfortunately a violent one, in which there was doubtless intense agony. Dr. Finch had been a resident of this city for many years, and had a wide practice, and when himself was one of the most skillful veterinary surgeons in South Wisconsin.

His remains were immediately placed in a wagon and taken to the home of his brother, Mr. Loren Finch, in the town of La Prairie, about four miles from this city.
